

# ATTENTION CUSTOMERS, VISITORS AND VENDORS!

I have sent the following e-mail to our  
employee team.

Team, there is a lot of changes happening fast and that includes Meadowland concerning the Coronavirus outbreak. To help **“flatten the curve”** and minimize interactions at our locations with the public at large and to protect our Employee Team, our Member Owners, and the ability of our Great Cooperative to serve our customer needs, we will be taking some unprecedented steps. First, effective tomorrow (3-18-2020) I want us to lock down our offices at our locations to minimize contact with the general public. Also, we should not allow anyone but employees into our shops or outlying buildings. We will continue dumping and loading grain, hauling fuel, and delivering feed, but we need to maintain a six-foot distance from incoming Customers and outbound truckers and wherever possible the driver should remain in the truck. At our “C” stores we will be removing the seating and promote the **buy and go** concept where the customer gets his food and leaves the store to eat it. Our goal is to try and limit groups of people forming in the store. We will try do as much business as we can electronically. I have attached a notice you can post at your location. I realize some folks may think this is overkill, and in the end hopefully it is, and we look back and say that was a lot of worrying about nothing, but if these strong measures keep one employee from getting sick it will be well worth it.

I hope you understand our reasoning for these  
drastic measures, but the Safety of our  
Employee Team and Member Owners is our  
Main focus as well as protecting our ability to  
serve your needs!

PLEASE CALL US AT see directory below

FOR ALL YOUR BUSINESS NEEDS!

THANK YOU FOR YOUR DEDICATION TO  
MEADOWLAND FARMERS COOP!
